- Require support:
 - SMO 6 (I&D)
 - SMO 4 (IESBA Code)
 - SMO 2 (IES)

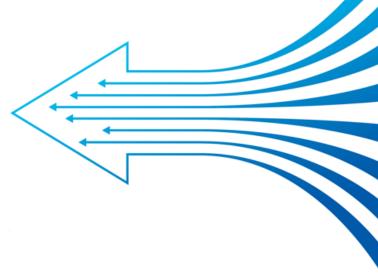

LEVEL OF SMO FULLFILLEMENT

Key Findings: Overall

- Main adoption and implementation challenges for PAOs
 - Educational standards (IES), especially 2015 revised IES
 - Quality assurance review systems
 - Investigative and disciplinary (I&D) systems
 - Suitable PAO governance structures, operational capacity, and financial sustainability need to be in place

Key Findings: Overall

- With additional support, PAOs are well-positioned to advocate on importance of topics
 - Often there is low awareness and/or capacity amongst relevant stakeholders to effectively implement these best practices
- Capacity building initiatives could help enhance the adoption and implementation of international standards and strong economic ecosystems by addressing underlying barriers
 - Suitable PAO governance structures, operational capacity, and financial sustainability need to be in place

PAO Capacity Building: Available Resources

 The <u>IFAC PAO Capacity Building Series</u> helps PAOs identify gaps in knowledge that, when filled, will enable them to cement their role as the cornerstone of the accountancy profession and a contributor to global economic growth. All five guides include practical examples and insights to PAO-driven solutions to development challenges
