| YEAR     | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 | 2025 |
|----------|------|------|------|------|------|------|------|------|
| OFFICERS | 8    | 9    | 10   | 11   | 14   | 16   | 18   | 21   |

| 2025   | 2025 BA<br>DEGREE |    | PHD<br>DEGREE | Total |  |
|--------|-------------------|----|---------------|-------|--|
| Male   | 1                 | 7  | 1             | 9     |  |
| Female | 2                 | 10 | 0             | 12    |  |
|        | -                 |    |               | 21    |  |

#### 8. Risks - Challenges

- > Achieving **Ownership** of the Reform
- Exercising strong leadership
- > Ensuring continuous **political commitment**
- ➤ Managing the lack of communication "silo" mentality
- > Ensuring effective **governance** structures
- > Flexibility in **recruiting** additional staff with the necessary qualifications
- Adaptations at the organizational (organization modification) and legislative (legislative framework modification) level
- > Setting ambitious, yet **credible milestones**
- > Maintaining awareness of the reform benefits but also the consequences of its failure

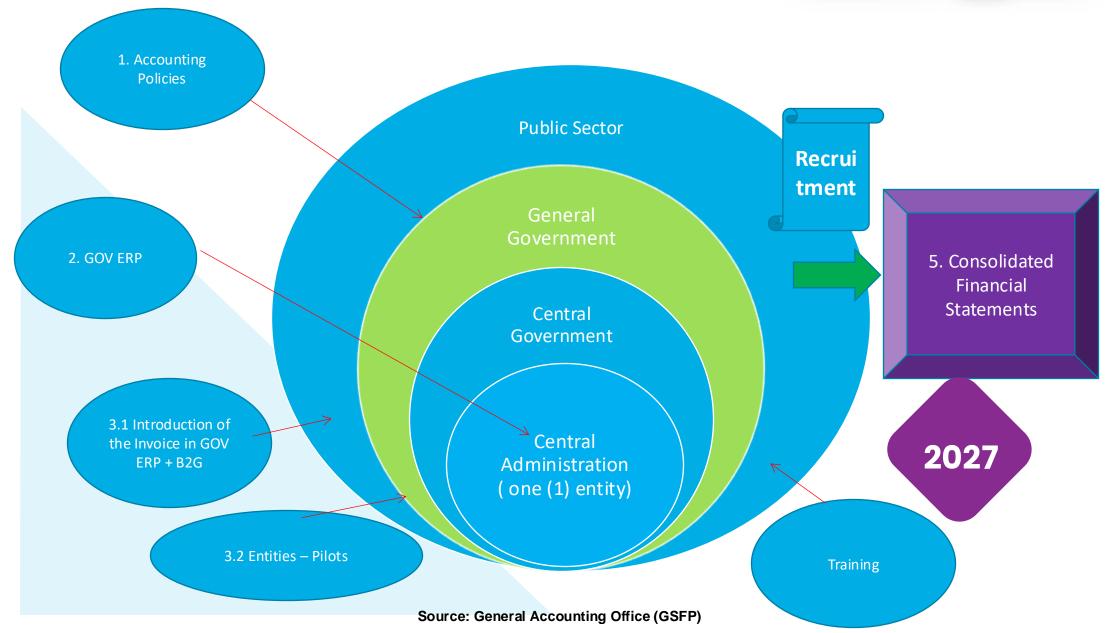

#### 9. Lessons Learned & Refprms Implemented

- Transparency and responsibility remain at the heart of today's concerns
- **Compliance costs**: New standards often require investment in training, technology and external audits
- ❖ Increased complexity: Stricter regulations can complicate accounting processes and slow down decision-making
- \* Fiscal rules can only be effective if accompanied with procedural rules to avoid too much 'creative accounting
- Expertise and know-how (Technical support / TSI (EU), IMF)
- Co-operation between and support of central actors
- ❖ Available resources (capacity, financial)

#### 10. Overview

The European Public Sector Accounting Standards (EPSAS) initiative aims to provide <a href="https://example.com/harmonised">harmonised</a> accruals-based public sector accounting standards for the EU, providing a firm basis for understanding the **financial position and performance** of government entities at all levels.

The initiative does not cover budgeting.

#### Legend:

AM < 40%: "Low accounting maturity"

70% > AM ≥ 40%: "Middle accounting maturity"

AM ≥ 70%: "High accounting maturity"

| General<br>government | 2025 | 2030<br>(forecast) |  |
|-----------------------|------|--------------------|--|
| Belgium               | 74%  | 76%                |  |
| Bulgaria              | 74%  | 75%                |  |
