STAREP Accounting and Auditing Education Community of Practice

STAREP is co-funded by:

INTRODUCTION

The case for change in accounting education

- » I. Introduction
- » II. International accounting standards and their impact on accounting education
- » III. Examples of changes to accounting education as a result of IFRS adoption
- » IV. The broader case for change in accounting education
- » V. Drivers of change for Universities
- » VI. Different models for training of professional accountants
- » VII. Competency-based education in U.S. Colleges
- » VIII. Implementing Competency-based education: best practices

II. INTERNATIONAL ACCOUNTING STANDARDS AND THEIR IMPACT ON ACCOUNTING (AND AUDIT) EDUCATION

II. Many international standards

- » **IFRS** and IFRS for SMEs
 - » *International Accounting Standards Board*
- » International Public Sector Accounting Standards (IPSAS)
 - » *International Public Sector Accounting Standards Board (IPSASB)*
- » International Standards on Auditing (ISAs) and International Standards on Quality Control (ISQC)
 - » *International Auditing and Assurance Standards Board (IAASB)*
- » Ethics Standards for Professional Accountants
 - » *International Ethics Standards Board for Accountants (IESBA)*
- » **International Education Standards (IES)**
 - » *International Accounting Education Standards Board (IAESB)*

II. IFRS Not just another set of standards

Afghanistan	China	Iceland	Montserrat	South Africa
Albania	Colombia	India	Myanmar	Spain
Angola	Costa Rica	Indonesia	Nepal	Sri Lanka
Anguilla	Croatia	Iraq	Netherlands	St Kitts and Nevis
Antigua and Barbuda	Cyprus	Ireland	New Zealand	St Vincent and the Grenadines
Argentina	Czech Republic	Israel	Nicaragua	Suriname
Armenia	Denmark	Italy	Niger	Swaziland
Australia	Dominica	Jamaica	Nigeria	Sweden
Austria	Dominican Republic	Japan	Norway	Switzerland
Azerbaijan	Ecuador	Jordan	Oman	Syria
Bahamas	Egypt	Kenya	Pakistan	Taiwan
Bahrain	El Salvador	Korea (South)	Palestine	Tanzania
Bangladesh	Estonia	Kosovo	Panama	Thailand
Barbados	European Union	Kuwait	Paraguay	Trinidad & Tobago
Belgium	Fiji	Latvia	Peru	Turkey
Belarus	Finland	Lesotho	Philippines	Uganda
Belize	France	Liechtenstein	Poland	Ukraine
Bermuda	Gambia	Lithuania	Portugal	United Arab Emirates
Bhutan	Georgia	Luxembourg	Qatar	United Kingdom
Bolivia	Germany	Macao	Romania	United States
Bosnia and Herzegovina	Ghana	Macedonia	Russia	Uruguay
Botswana	Greece	Madagascar	Rwanda	Uzbekistan
Brazil	Grenada	Malaysia	Saint Lucia	Venezuela
Brunei	Guatemala	Maldives	Saudi Arabia	Vietnam
Bulgaria	Guinea-Bissau	Malta	Serbia	Yemen
Cambodia	Guyana	Mauritius	Sierra Leone	Zambia
Canada	Honduras	Mexico	Singapore	Zimbabwe
Cayman Is.	Hong Kong	Moldova	Slovakia	
Chile	Hungary	Mongolia	Slovenia	

» Red = Countries which require the use of IFRS for the vast majority of listed companies, based on a study of 143 countries, representing 97% of world GDP

II. IFRS = Principles based standards

Concepts - Principles - Rules

II. IFRS Resources

Thursday 08 September 2016

IFRS Teachers

IFRS Foundation education initiative activities designed to support IFRS teachers include:

1. **IFRS Teaching sessions**
The IFRS Foundation is holding a series of regional half-day IFRS Teaching sessions, in cooperation with regional academic accounting associations and others to assist IFRS teachers to implement Framework-based teaching. The sessions also aim to encourage teaching that develops in students the ability to make the judgements that are necessary to apply principle-based accounting standards. For more information [click here](#).
2. **IFRS for SMEs Train the Trainer workshops**
The IFRS Foundation is holding a series of regional 'train the trainers' workshops, in cooperation with regional professional associations and the world's development agencies. These workshops are part of our programme to build capacity for the implementation of the

II. What is the IFRS Conceptual Framework

II. Framework-based teaching: How to implement it?

Source: Coetzee and Schmulian (2011)

II. Framework-based teaching: Benefits?

II. Framework-based teaching: Challenges?

III. EXAMPLES OF CHANGES TO ACCOUNTING EDUCATION AS A RESULT OF IFRS ADOPTION

III. Examples: Australia

III. Examples: South Africa

III. Examples: France

III. Examples: France: Ecole Supérieure du Commerce de Paris (ESCP-Europe)

III. Examples: France-ESCP

Main Pedagogical Impacts on the Way the Accounting Process is Taught

	Transaction Identification	Recording Process	Presentation & Analysis: F/S
Learning goals	Students must be able to define economic transactions before recording them.	No real changes (students must be able to record transactions.)	Students must be able to identify and explain the impact of how the transaction is defined on the presentation and analysis of financial statements.
Learning strategy	<ul style="list-style-type: none"> - Use real cases - Presentation of multiple transactions in different industries 	No real changes (double entry, business game)	No real change (business games, real case studies including presentation by a CFO)
Assessment	<ul style="list-style-type: none"> - Design of dedicated exercises based on real life cases - Assessment in final exam 	No real changes (business game, tests)	Explanation of recording impacts become explicit and are emphasized.

IV. THE BROADER CASE FOR CHANGE IN ACCOUNTING EDUCATION

IV. The case for change in accounting education: 9 Key priorities for CFOs

Regulation

Globalization

Technology (especially IT)

Risk management

Transformation (e.g. re-engineering to reduce costs or improve efficiency)

Stakeholder management

Validation of corporate strategy

Changes in financial reporting (IFRS, environmental and social metrics)

Finding the right staff with the right skills

IV. The case for change in accounting education: Generic skill categories of accounting graduates

<i>Skill List</i>	Watty et al. (1998)	Albrecht & Sack (2000)	Kavanagh & Drennan (2008)	Jackling & De Lange (2009)	Hancock et al. (2009)	IES 3	Skills from Sri Lankan Job Advertisements	Skills Considered for this Study
1. Intellectual Skills

Planning and organising					✓		✓	✓
Community involvement and social responsibility					✓			

IV. The case for change in accounting education: key competencies

Adapted from "Professional Accountants – the future" ACCA 2016

IV. Key competencies

Technical skills and ethics (TEQ)

- The skills and abilities to perform activities consistently to a defined standard while maintaining the highest standards of integrity, independence and skepticism.

IV. Key competencies

Intelligence (IQ)

- The ability to acquire and use knowledge: thinking, reasoning and solving problems.

Creative (CQ)

- The ability to use existing knowledge in a new situation, to make connections, explore potential outcomes, and generate new ideas.

Digital (DQ)

- The awareness and application of existing and emerging digital technologies, capabilities, practices and strategies.

Emotional Intelligence (EQ)

- The ability to identify your own emotions and those of others, harness and apply them to tasks, and regulate and manage them.

Vision (VQ)

- The ability to anticipate future trends accurately by extrapolating existing trends and facts, and filling the gap by thinking innovatively.

Experience (XQ)

- The ability and skills to understand customer expectations, meet desired outcomes and create value.

IV. The case for change in accounting education: Competency-based education

IV. The case for change in accounting education: Competency-based education

Context of work

Personality

Motivation

Work environment

Meta-competencies/Trans-competencies

e.g. communication, creativity, problem solving, learning/self-development, mental agility, analysis, *reflection*

Knowledge/Cognitive Competence

Technical/theoretical/specialist
(formal knowledge base of profession)
Tacit-practical knowledge
(difficult to articulate or pass on, often linked to the performance of particular functions)
Procedural knowledge
(basic routines – how, what, who, when, etc.)
Contextual knowledge
(organization, sector, geography, client base, etc.)
Knowledge application
(including synthesis, transfer and conceptualization skills)

Functional Competence

Occupation-specific
(range of profession-specific functions/tasks)
Process/organizational/management
(e.g. planning, monitoring, implementing, delegating, evaluating, self/time management)
Mental
(e.g. literacy, numeracy, diagnosis, IT skills)
Physical
(e.g. hand-eye coordination, manual dexterity, keyboard skills)

Personal/Behavioral Competence

Social/Vocational
(e.g. self-confidence, persistence, thinking on feet, control of emotions and stress, listening skills, task-centeredness, interpersonal skills, empathy)
Intra-professional
(e.g. collegiality, conformity to norms of professional behavior)

Values/Ethical Competence

Personal
(e.g. adherence to law, adherence to moral or religious codes, sensibility to needs and values of others)
Professional
(e.g. adopting appropriate attitudes, adherence to professional codes of conduct, self-regulation, environmental sensitivity, client-centeredness, ethical judgement, acknowledging boundaries of own competence, duty to keep up to date, duty to help develop newcomers to profession, judgements re. “whistle-blowing” on colleagues)

Professional Competence

Outcomes – (macro/micro/partial)

Observed/ Perceived by self	← feed – back →	Observed by others
-----------------------------------	--------------------	-----------------------

Reflection (super meta)

V. Drivers of change for Universities - Integration with Industry

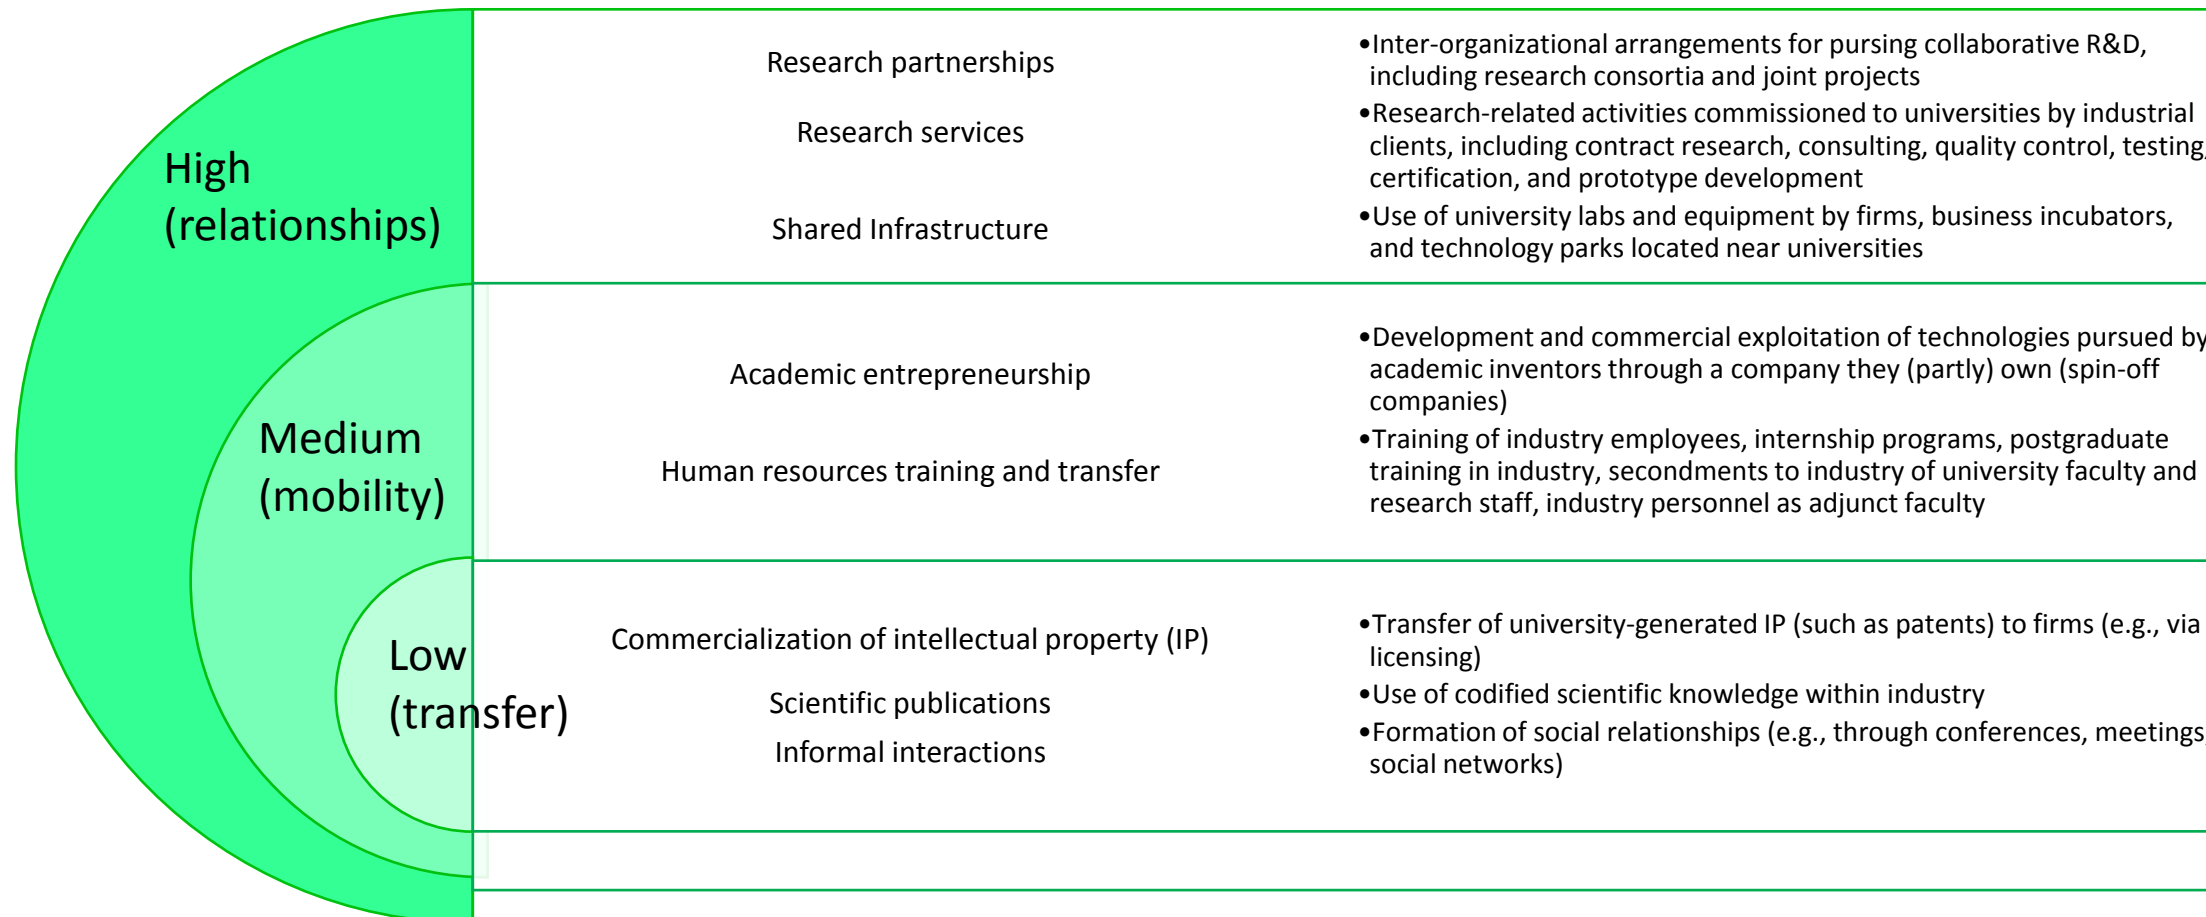

V. Drivers of change for Universities - Integration with Industry

V. Drivers of change for Universities - Integration with Industry

Topology of University-Industry Collaboration, from Higher to Lower Intensity

V. Evolving University Models

- » The dominant university model in Australia and elsewhere, is a broad-based teaching and research institution, supported by a large asset base
- » Significant transformation of university business models in the coming

Three models:

- » **Streamline status quo** - broad-based teaching and research institutions, but will transform the way they deliver their services and administer their organisations
- » **Niche operators** - Chooses particular customer segments to focus on - enabling the targeted development of course offerings, sales channels, and delivery
- » **Transformers** - Private providers and new entrants will carve out new positions in the traditional sector, creating new markets that merge parts of the higher education sector with other sectors.

V. Evolving University Models

Potential future model – “streamlined Status Quo”

Customers	Domestic students		International students		Industry		
Product offerings	Vocational and further education and training		Higher education		Research
