# Overall Approach

# Objectives of the Profiling Tool

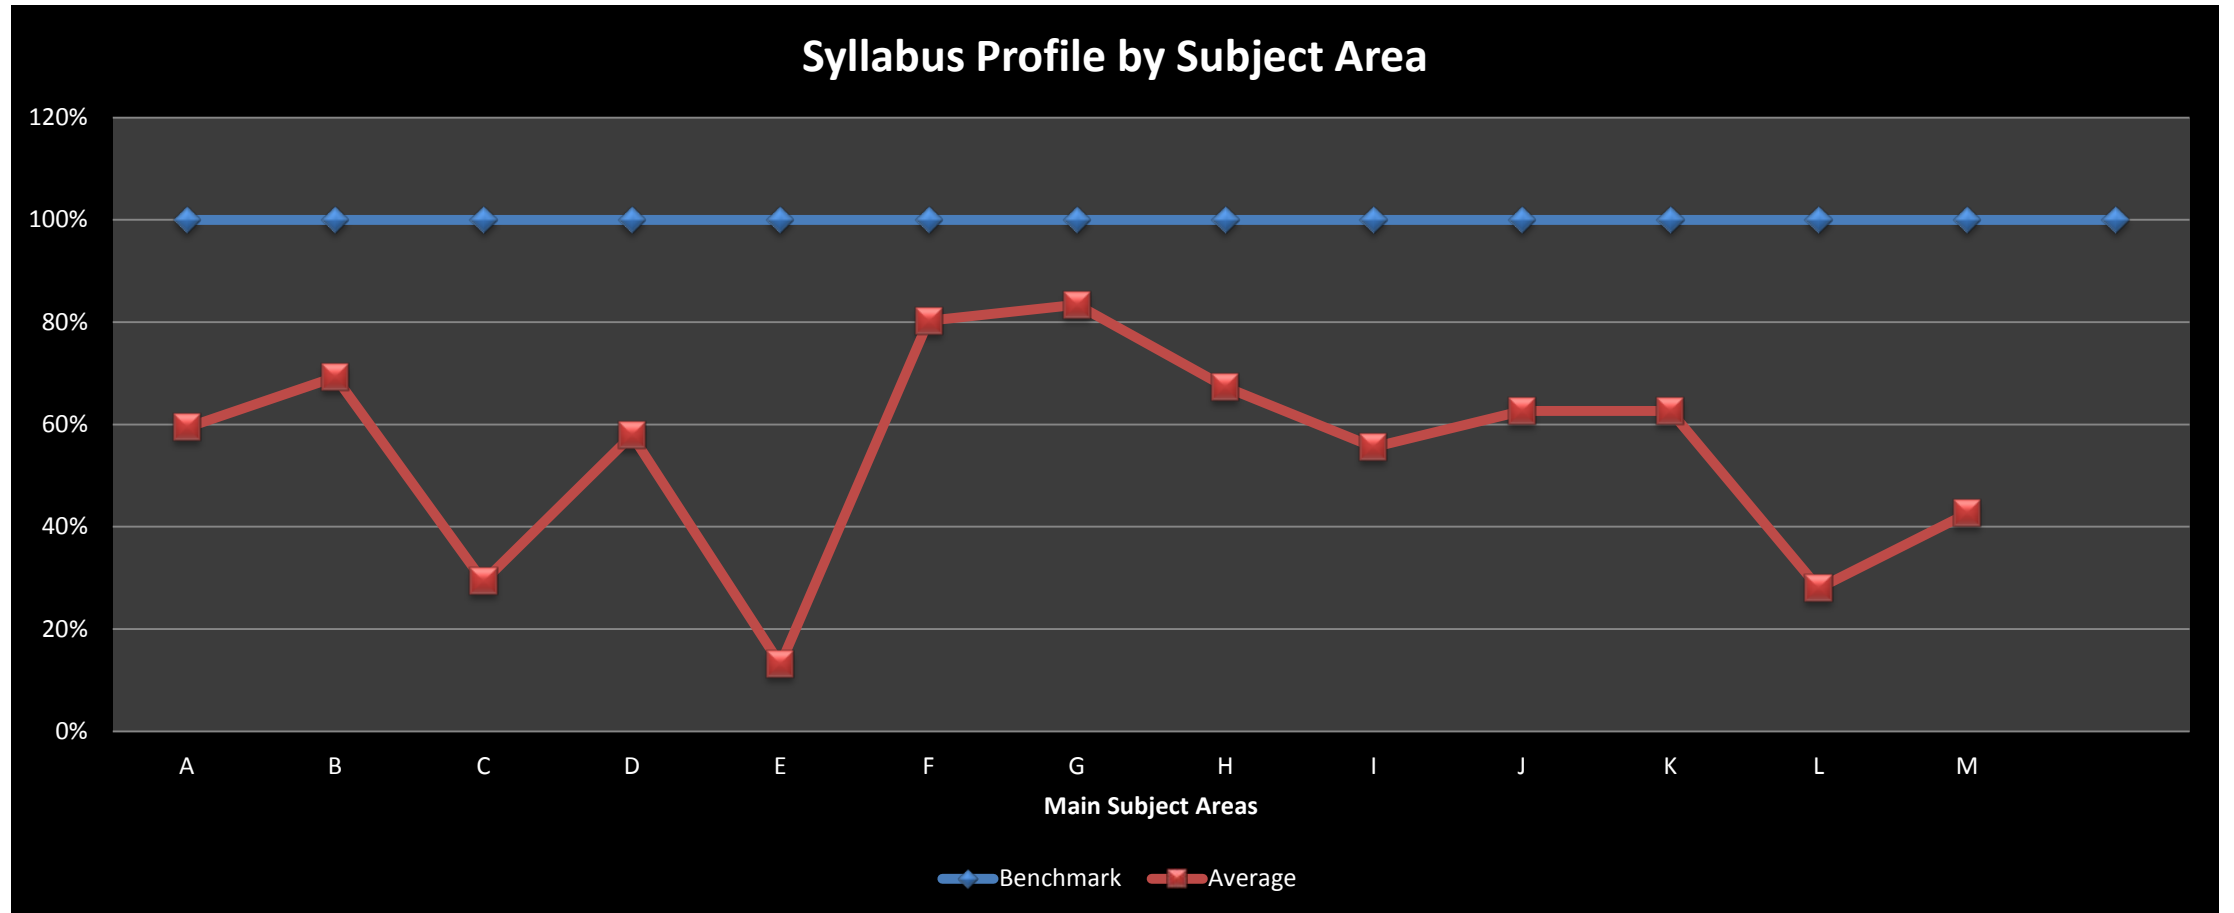

For International Subject Areas:

1. Allow STAREP EduCoP members to assess programmes against international benchmarks
2. Allow STAREP EduCoP members to identify areas that need upgrading
3. Establish a Regional Minimum Syllabus (Common Core)
4. Collect data from across the region to establish areas of strength in various programmes
5. Investigate the possibility of exchanging information and experiences and sharing resources and knowledge across the community

# Data Obtained from 9 Institutions across the Region
